Subject: Michigan Vs. Indiana

Hello to you all,

When I was young I hunted bob-white quail in Indiana. Indiana did nothing for the quail...GONE!!!! I just turned fifty and once again Indiana did nothing for the Ruffed Grouse.....GONE, the season is closed for good! NO landscape for wildlife...what little landscape is not managed for wildlife.

The wildlife is your number one customer..PERIOD. I love coming up to Michigan because I get to see so many species that I do not get to see in Indiana. I love paying the money and hunting and fishing in Michigan!!!!!! Please do not do what Indiana has done!!!

Thanks for your time!
